Due to our policy of continuous improvement, the actual product may differ slightly from the one illustrated in these instructions.

## Before first use

Note that the first time you use your sandwich toaster, you may notice a slight burning smell and a little smoke. This is completely normal and will soon disappear.

- Unpack your sandwich toaster. You may wish to keep the packaging for future use.
- Wipe the cooking plates with absorbent paper or a soft damp cloth.
- Clean the outside of your sandwich toaster with a soft damp cloth which has been wrung almost dry in warm soapy water. The cover can be polished with a soft dry cloth.

## Using your sandwich toaster

1. Plug your toaster in to the mains supply socket and switch the socket on if required. The red ‘power on’ light will light up and your sandwich toaster will start heating up. Pre-heating will take about 6 minutes.
2. When your sandwich toaster is fully heated the green ready-to-cook light will light up. This light will go on and off as your sandwich toaster maintains the right temperature.
3. Lightly brush the cooking plates with sunflower oil or spread the OUTSIDE of the bread with butter or a spread suitable for cooking. Don’t use a low fat spread or one which has a high water content.
4. Place the lower slice of bread onto the bottom plate ‘buttered’ side down. Form a hollow with the back of a spoon and add 1-2 tbsp of the prepared filling. Don’t overfll the sandwich or the filling will leak out. Add the top slice of bread buttered side up and close the lid gently and latch it. Take care because your sandwich toaster will be hot!
5. Allow the sandwich to toast for approximately 4-5 minutes. Leave the sandwich in the toaster for more or less time according to taste.
6. Unlatch and open the lid. Watch out for escaping steam—use a tea towel or wear oven gloves. Remove the cooked sandwich with a non-metallic spatula. Don’t use a metal blade as this will damage the non-stick surface of the plates.
7. Once cooked, take care when eating, as fillings, especially fruit or tomato, can be very hot.

Making toasties is easy and fun, they can be as creative or as simple as you like and make great snacks whether eaten at home or on the go.

Using basic ingredients delicious sweet or savoury meals can be made in minutes, perfect for any time of the day.

Here are some classic toasted sandwich recipes that you may wish to try.

3. Add the toffee pieces and banana slices and arrange evenly across the bread. Place another slice of bread on top to form a sandwich (butter side up).
4. Close the lid and let the sandwich cook until heated thoroughly and golden brown.

**⚠ Unplug and switch off your sandwich toaster and allow it to fully cool down before cleaning it. Do not immerse the main body, cord set or plug in water or liquid of any kind.**

**Never use steel wool, scouring pads, abrasive cleaners or metallic utensils to clean your sandwich toaster.**

1. Before cleaning your sandwich toaster, switch it off and unplug it from the mains supply. Allow it to cool down fully.
2. Wipe the cooking plates with absorbent paper or a soft damp cloth.
3. Clean the outside of your sandwich toaster with a soft damp cloth which has been wrung almost dry in warm soapy water. The cover can be polished with a soft dry cloth.

**⚠ This appliance must be earthed.**

This appliance is fitted with either a moulded or rewirable BS1363, 13 amp plug. The fuse should be rated at 5 amps and be ASTA approved to BS1362.

If the fuse in a moulded plug needs to be changed, the fuse cover must be refitted. The appliance must not be used without the fuse cover fitted.

If the plug is unsuitable, it should be dismantled and removed from the supply cord and an appropriate plug fitted as detailed below. If you remove the plug it must not be connected to a 13 amp socket and the plug must be disposed of immediately.

The wires of the mains lead are coloured in accordance with the following code:

GREEN/YELLOW = EARTH  BLUE = NEUTRAL  BROWN = LIVE

The wire which is coloured GREEN/YELLOW must be connected to the terminal in your plug which is marked with an E or by the earth symbol (⏚) or coloured GREEN or GREEN /YELLOW.

The wire which is coloured BLUE must be connected to the terminal in your plug which is marked with the letter N or coloured BLACK.

The wire which is coloured BROWN must be connected to the terminal in your plug which is marked with the letter L or coloured RED.

If any other plug is used, a 5 amp fuse must be fitted either in the plug or adaptor or at the distributor board.
